Leadership

Gabriel Cobos

Software Engineer w/ a TS/SCI (CI Poly)
Fort George G. Meade

Summary

Open to work Sept 2022

Since my days as the Robotics Club President in HS I've had a passion for programming, and it's been confirmed with my most recent professional opportunity as a full-stack web developer.

Web development has stolen my heart, and I'd appreciate nothing more than to find a home to pour that love into.

I've taken to frontend web development, and all things UI/UX, accessibility related. I'm ready continue my professional journey as a developer to see what new skills I may gain, and I hope grow into a position to make use of the leadership skills I have developed during my military career.

Experience

United States Air Force

5 years 6 months

Software Engineer

June 2021 - Present (1 year 3 months)

Maryland, United States

- Launched a job placement application with a team of 4 developers; connecting 280+ military members to opportunities, reducing gap time between jobs, and improving overall job satisfaction
- Built 20+ reusable components with React, Typescript, and corresponding unit/end-to-end tests with Jest and Cypress; servicing all pages of the application, enabling multiple facets of the application's functionality
- Lead training for 7 developers, created onboarding documentation with tech specific coding challenges for React, Jest, Bootstrap, and Styled-Components; shortened spin up time from 3 to 1 months

- Maintained testing environment with Jest and Cypress, wrote 100+ accessibility conscious tests by utilizing component selectors compliant with screen readers; contributing to the +90% test coverage

- Championed best practices by overhauling application file structure, improving code continuity, and refactored site wide CSS, by consolidating repeat styles, eliminating conditional styling logic from React, and removing inline styles

Non-Commissioned Officer

March 2017 - Present (5 years 6 months)

- Supervised 14 airmen; conducted yearly performance evaluations, provided career guidance, and professional feedback

- Achieved top graduate award from Airmen Leadership School out of 50 aspiring NCOs

- Certified fitness instructor, lead physical training for +500 airmen

National Security Agency

3 years 4 months

Geolocations ISR Mission Manager - Mil

June 2020 - June 2021 (1 year 1 month)

Fort George G. Meade, Maryland, United States

- Oversaw team of 24 members, increased overall team productive output by 27% by creating incentives for top performers, improving metrics tracking, and taking a people first leadership approach to management

- Managed legal compliance of 100s of critical missions to maintain international privacy rights

- Performed data analysis for 1,000s of collections satisfying intelligence requirements (IR) for customers across the intelligence community (IC)

Geolocations ISR Technician - Mil

March 2018 - June 2020 (2 years 4 months)

Fort George G. Meade, Maryland, United States

- Subject Matter Expert (SME), trained 13 onboarding members through a 90-day on-the-job-training (OJT) method, all passed with scores +90%, and pioneered new practices enabling an increased priority for the team's tasks

- Coordinated 100s of missions with global partners/resources, utilizing + \$5MM of equipment, providing critical data to front-line operatives, supporting reconnaissance efforts, and discovery operations

Education

University of Maryland Global Campus

Bachelor of Science - BS, Computer Science · (March 2019 - March 2023)

Oak Hills High School

· (August 2012 - June 2016)
