All,

I was just on a call with Devon (HR). The company is implementing a unified process for all contractor onboarding/offboarding. We are now supposed to use a form off of Netsuite. However, I am sure it will require an SOW to be in place. We currently have not unfilled positions on any of our Paradyme SOWs. So until we get Alex or Adi to secure approval of the Paradyme mega-SOW request, I think we have to lean forward and do this informally through Sid.

The first SOW we pass will be for Fed Base Apps. As soon as it is signed, we can formally move the engineers that have already been moved to products, but are charging against our RDIM and PDA SOWs to that the new Fed Base Apps SOW. That will open up the RDIM and PDA slots for new Paradyme engineers.

So, I think what I'm saying is that we need to use our Sid "magical" power if it's still available for Sanjay.

Naresh

**Subject:** Re: Training Account Request

Sid has a "magical" power to request Training Accounts from Training without a specific SOW attached to the contractor, but I have personally always been asked to provide a SOW from the Training team.

Have we identified a SOW for Sanjay yet?
